PROFILE

Full Stack Web Developer with hands-on experience in the MERN stack (MongoDB, Express.js, React.js, Node.js) and a strong focus on creating responsive, user-friendly web applications. Passionate about combining clean design with efficient functionality to build impactful digital solutions. Enthusiastic learner with an interest in modern UI/UX practices and scalable web architectures.

PROJECTS

BeatByte – Music Streaming Web App — MERN Stack (MongoDB, Express.js, React.js, Node.js)

Developed a full-stack music streaming website with JWT authentication, playlist management, and a responsive UI.

GitHub: github.com/parthbhatt45/Beatbyte-Music

Travel Management System Website — HTML, CSS, JavaScript, MySQL

Created a responsive travel booking platform with separate user and admin modules for trip and booking management.

GitHub: github.com/parthbhatt45/Voyager

Online Shopping Site — PHP, HTML, CSS, JavaScript

Built an e-commerce platform featuring product listings, cart functionality, and a simple checkout interface.

Hotel Management System — Python, JavaScript

Designed a console-based hotel management system to handle room bookings, availability, and billing.
