SUMMARY

Full Stack Web Developer with experience in building scalable web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in UI/UX design tools including Figma and Canva, with hands-on exposure to AI integration and Vercel cloud deployment. A continuous learner with a strong eye for design and a focus on delivering clean, impactful, and user-friendly digital solutions.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB, MySQL

Programming Languages: JavaScript, C++, Java

AI & Cloud: AI SDK Integration, Vercel Deployment

Data & Analytics: Power BI

UI/UX Tools: Figma, Canva

Version Control & IDEs: Git, GitHub, VS Code

EDUCATION

B.Tech in Information Technology

2023 – 2027

Shah & Anchor Kutchhi Engineering College, Mumbai

CGPI: 8.94 / 10

HSC – Maharashtra State Board

2023

Kiran Patil Jr. College, Nallasopara

Percentage: 70.33%

SSC – Maharashtra State Board, Mumbai

2021

Royal Academy High School, Virar

Percentage: 89.20%

EXPERIENCE & RESPONSIBILITIES

Web Development Intern – SAKEC

June 2024

- Completed a structured web development internship, gaining hands-on experience building and deploying real-world web applications.
- Worked with frontend and backend technologies to deliver functional project deliverables within a team environment.

Events Co-Head – E-Cell, SAKEC

Aug 2025 – Present

- Lead end-to-end planning and execution of entrepreneurship events including workshops, speaker sessions, and competitions for 500+ students.
- Coordinating cross-functional teams to drive the entrepreneurial culture across the college campus.

Social Media Member – E-Cell, SAKEC

Aug 2024 – Jul 2025

- Managed social media content and campaigns for E-Cell, increasing student engagement and event visibility.

PROJECTS

Memorii | AI-Powered Memory Assistant

React, Tailwind CSS, Python, AI SDK, Vercel

- Developed an AI-powered web application to assist Alzheimer's patients in remembering daily tasks and maintaining independence through an intuitive interface.
- Built a smart caregiver dashboard enabling real-time monitoring and management of patient care activities.

- Implemented multilingual support to deliver the entire experience in the user's native language, improving accessibility and usability.
- Deployed on Vercel with a React + Tailwind CSS frontend and a Python-based AI backend.

GitHub: github.com/parthbhatt45/memorii-ai

BeatByte | Music Streaming Web App

MongoDB, Express.js, React.js, Node.js (MERN Stack)

- Developed a full-stack music streaming platform with JWT authentication, playlist management, and a fully responsive UI.
- Implemented secure user sessions, dynamic playlist creation, and a clean music player interface.

GitHub: github.com/parthbhatt45/Beatbyte-Music

Voyager | Travel Management System

HTML, CSS, JavaScript, MySQL

- Built a responsive travel booking platform with separate user and admin modules for managing trips and bookings.
- Implemented an admin dashboard for trip management and a user-facing booking flow with dynamic MySQL data.

GitHub: github.com/parthbhatt45/Voyager

Online Shopping Site

PHP, HTML, CSS, JavaScript

- Built an e-commerce platform featuring product listings, cart functionality, and a streamlined checkout interface.

Hotel Management System

Python, JavaScript

- Designed a console-based system to manage room bookings, availability tracking, and billing operations.

CERTIFICATIONS

- Web Development Internship – SAKEC
- Programming Essentials in C – Cisco Networking Academy
- Introduction to Cybersecurity – Cisco Networking Academy
- C++ Internship – Concept Simplified
- Basics of Python Internship – Infosys Springboard
- Python Essentials 1 – Cisco Networking Academy
- Java Full Stack Developer Virtual Internship - Eduskills Academy
